Quantum X Series for You

Quantum Universe

Quantum Universe Expo Series 2026

QI4U2026 in United Kingdom

Satellite Event of INQA 2026

Date: October 28-30, 2026

Develop collaborative research ideas in quantum technologies with researchers from Japan and the UK.

Venue

Friends House, George Fox Room,
173-177 Euston Road, London NW1 2BJ

Schedule

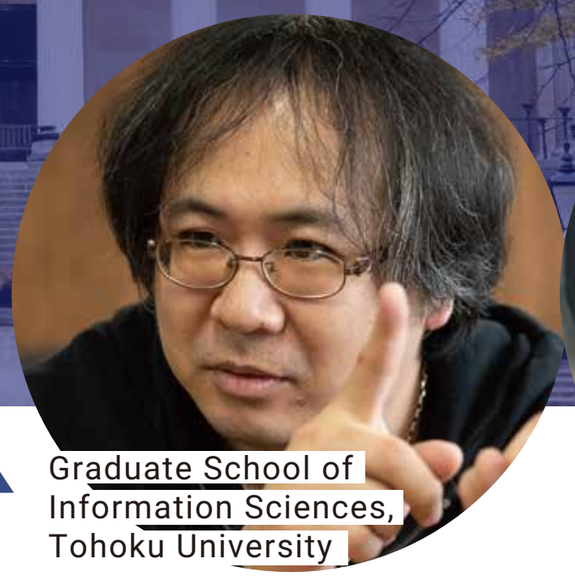

28 Oct (Wed) Research introductions, open research challenges, research-topic matching and team formation

29 Oct (Thu) Collaborative development of research concepts, methods, resources and potential social or industrial applications

30 Oct (Fri) Research concept presentations and preparation of initial 30/60/90-day continuation plans

Register via QR code

DEADLINE TUE, 13 OCT, 12:00 BST

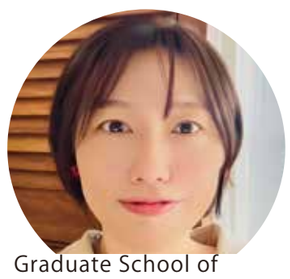

Graduate School of Information Sciences, Tohoku University

Prof. Masayuki Ohzeki

University College London

Prof. Paul Warburton

Graduate School of Information Sciences, Tohoku University

Assoc. Prof. Rumiko Honda

We will support you!

Japan × UK

Research-focused programme

Addressing Foundations & Applications of Quantum Annealing

Organisers

Tohoku University and University College London,
within the Quantum Universe / SIP Phase 3 quantum initiative.

TOHOKU UNIVERSITY

GSIS Tohoku University Graduate School of Information Sciences

Institute of SCIENCE TOKYO

Turn your research ideas into collaboration, publications, and build a local Quantum Community!

QUANTUM EXPO 2026 SERIES

Quantum Universe activities are held worldwide!

Held in 7 countries, including Italy, Korea, and Peru
